We Are In A Mission To Help The Helpless

Trusty Partner work in India has enabled thousands of people to lead lives of independence and dignity.

We have been working with local partners to strengthen organizations and communities, and have supported the treatment of millions of people with eye disorders.

We have educated, counseled, trained and rehabilitated people who are visually impaired or blind, and helped extend the reach of eye services to the least served areas of India.

Crowdfunding is the use of small amounts of capital from a large number of individuals to finance a new business venture.

Join The Community To Give Education For Children

Through Our Work, We Protect Children From Different Forms
Of Harm, Including Child Labour, Child Marriage, Abuse And
Different Forms Of Exploitation
